Alauda End User License Agreement

PLEASE READ THIS END USER LICENSE AGREEMENT ("EULA") CAREFULLY BEFORE USING SOFTWARE FROM ALAUDA. BY USING ALAUDA SOFTWARE, YOU SIGNIFY YOUR ASSENT TO AND ACCEPTANCE OF THIS END USER LICENSE AGREEMENT AND ACKNOWLEDGE YOU HAVE READ AND UNDERSTAND ITS TERMS. AN INDIVIDUAL ACTING ON BEHALF OF AN ENTITY REPRESENTS THAT HE OR SHE HAS THE AUTHORITY TO ENTER INTO THIS EULA ON BEHALF OF THAT ENTITY. IF YOU DO NOT ACCEPT THE TERMS OF THIS EULA, THEN YOU MUST NOT USE THE ALAUDA SOFTWARE. THIS END USER LICENSE AGREEMENT DOES NOT PROVIDE ANY RIGHTS TO ALAUDA SERVICES SUCH AS SOFTWARE MAINTENANCE, UPGRADES OR SUPPORT. PLEASE REVIEW YOUR SUBSCRIPTION AGREEMENT(S) FOR DETAILS REGARDING YOUR ENTITLEMENT TO SUCH SERVICES.

This EULA governs the use of the Alauda Programs (the "Programs", as defined below), regardless of whether you have an active subscription agreement with Alauda. In this EULA, "Programs" means Alauda Container Platform (ACP), Alauda AI Platform, Alauda Enterprise Services, Alauda Virtualization, and any related software and data files (including AI models) provided by Alauda Singapore Pte. Ltd. ("Alauda"), including updates and upgrades thereto and the associated documentation, together with any modified versions thereof. Your use of Alauda AI and of AI models made available by Alauda is also subject to the Alauda AI Supplemental Terms available at https://www.alauda.io/legal/ai-supplemental-terms, which are incorporated into this EULA by reference; in the event of a conflict concerning an Alauda Model, Model Derivative, Input, or Output (each as defined in the Alauda AI Supplemental Terms), the applicable Model License controls first (to the extent described in Section 2.1 of the Alauda AI Supplemental Terms), followed by the Alauda AI Supplemental Terms, followed by this EULA.

1. License Grant

1.1 Subject to the terms of this EULA, Alauda grants to you a perpetual, worldwide license to the Programs (each of which may include multiple software components). With the exception of (a) the third party software and data files licensed separately from this EULA as described in Section 6 below; (b) the trademarks contained in the data files described in Section 1.2 below; and (c) certain image files (such as logo and trademark image files) identified in Section 2 below, each software component is governed by a license located in the software component's source code or associated files that permits you to run, copy, modify, and redistribute (subject to certain obligations in some cases) the software component. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms applicable to any particular component.

1.2 Data Files. The Programs (including the Alauda AI Platform) include data files (including AI models) that are governed by open source, open-weight, or other licenses identified in the accompanying licensing documentation or, in the case of third party data files licensed separately from this EULA, by the license terms described in Section 6, and that do not have corresponding source code distinct from the data files themselves. Some of these data files are Alauda branded. For clarity, the scope and duration of your rights in each data file are governed by its applicable license terms, and the grant in Section 1.1 does not enlarge, extend, or supersede those rights.

1.3 This EULA pertains to the Programs as a whole. Nothing in this EULA is intended to limit or alter the rights granted under the license applicable to any individual open source component. To the extent any

provision of this EULA conflicts with the rights granted under an open source license for a particular component, the terms of that open source license shall prevail with respect to that component.

2. Intellectual Property Rights

The Programs and each of their components are owned by Alauda and other licensors and are protected under copyright law and other applicable laws. Title to the Programs and any component, or to any copy or modification shall remain with Alauda and other licensors, subject to the applicable open source license for each component. The "Alauda" mark, the individual Alauda product marks (including "ACP", "Alauda AI", "Alauda AI Platform", "Alauda Enterprise Services", "Alauda Virtualization", "Alauda Hyperflux"), and the Alauda logo are trademarks of Alauda Singapore Pte. Ltd. or its affiliates. This EULA does not permit you to distribute the Programs or their components using Alauda's trademarks, regardless of whether the Programs have been modified. You may commercially redistribute the Programs only if (a) permitted under a separate written agreement with Alauda authorising such use, or (b) you remove and replace all occurrences of Alauda trademarks. Modifications to the open source components may be made in accordance with the applicable open source license.

3. Limited Warranty

Except as specifically stated in this Section 3, a separate agreement with Alauda, or a license for a particular component, and to the maximum extent permitted by applicable law, the Programs are provided and licensed "AS IS" without warranty of any kind, express or implied, including but not limited to the implied warranties of merchantability, fitness for a particular purpose, and non-infringement. The entire risk as to the quality and performance of the Programs is with you. Alauda does not warrant that the functions contained in the Programs will meet your requirements, that the operation of the Programs will be uninterrupted or error-free, or that the Programs will comply with any particular regulatory framework.

If Alauda has delivered the Programs to you on physical media, Alauda warrants that such media shall be free from defects in materials and manufacture under normal use for a period of thirty (30) days from the date of delivery. THE FOREGOING WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Any warranty coverage under this Section 3 extends only to parties who hold an active subscription for the Programs purchased from Alauda or an authorized Alauda business partner (meaning a reseller, distributor, or other partner authorized by Alauda to distribute the Programs or subscriptions for the Programs; an "Authorized Business Partner").

4. Limitation of Remedies and Liability

To the maximum extent permitted by applicable law, your exclusive remedy under this EULA for defective physical media shall be, at Alauda's option, replacement of the media or a full refund of the price paid for the media, provided you return the defective media to Alauda within thirty (30) days of delivery with a copy of your payment receipt.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, UNDER NO CIRCUMSTANCES SHALL ALAUDA, ITS AFFILIATES, DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, AUTHORIZED

BUSINESS PARTNERS, OR LICENSORS BE LIABLE TO YOU FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND (INCLUDING BUT NOT LIMITED TO DAMAGES FOR LOSS OF REVENUE, PROFITS, GOODWILL, USE, DATA, OR OTHER INTANGIBLE LOSSES) ARISING OUT OF OR IN CONNECTION WITH THIS EULA OR THE PROGRAMS, WHETHER BASED ON WARRANTY, CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, OR ANY OTHER LEGAL THEORY, EVEN IF ALAUDA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

IN NO EVENT SHALL THE TOTAL AGGREGATE LIABILITY OF ALAUDA, ITS AFFILIATES, ANY AUTHORIZED BUSINESS PARTNER, OR THE LICENSOR OF ANY COMPONENT UNDER THIS EULA EXCEED THE AMOUNT ACTUALLY PAID BY YOU FOR THE PHYSICAL MEDIA ON WHICH THE PROGRAMS WERE DELIVERED. Nothing in this EULA shall exclude or limit liability that cannot be excluded or limited under applicable law.

5. Export Control

The Programs may be subject to export controls under the Strategic Goods (Control) Act 2002 of Singapore and associated regulations. You shall comply with all applicable export and import laws and regulations of Singapore and any other relevant jurisdiction before exporting, re-exporting, or importing the Programs or any portion thereof.

The Programs are Singapore-origin software and are not classified as US-origin under the US Export Administration Regulations ("EAR"). Certain open source components included in the Programs may contain US-origin code; such components are generally eligible for the publicly available software exclusion under EAR Section 734.3(b)(3) or equivalent exemptions. It is your responsibility to determine the applicability of any export or import restrictions to your use and distribution of the Programs.

You represent and warrant that you are not located in, or a resident or national of, and are not owned or controlled by any person or entity located in or organized under the laws of, any country subject to comprehensive trade sanctions that would prohibit receipt of the Programs under applicable law, and that you are not listed on, or owned or controlled by any person or entity listed on, any denied or restricted party list maintained by any governmental authority with jurisdiction over the transaction. You further agree that you will not use, export, re-export, or transfer the Programs, directly or indirectly, to any party who you know or have reason to know will utilize them in the design, development, or production of nuclear, chemical, or biological weapons, or rocket systems, space launch vehicles, sounding rockets, or unmanned aerial vehicle systems, or for any other prohibited end use under applicable export control laws.

6. Third Party Software

The Programs contain software components developed by third parties; except as described in this Section 6, each such component is an open source component licensed as described in Section 1, and its license terms accompany the component or are available at alauda.io/legal/open-source-notices. The Programs may also be provided with, or include options to install and use, third party software components or data files that are licensed separately from this EULA (including hardware vendor drivers, toolkits, and AI models licensed under non-open-source terms), as identified in the accompanying licensing documentation or at the notices location above; each such separately licensed component is subject solely to its own license terms. If you do not agree to abide by the applicable license terms for any such

separately licensed third party component, then you may not install or use it. Your rights in and obligations regarding each third party component are governed by its applicable license terms, including any requirements triggered by modification or redistribution of that component or a work containing it, and nothing in this EULA limits or narrows the scope of those terms. Nothing in this EULA obligates you to install or use any third party component that is not required for the core functioning of the Programs. Where the applicable open source license for a component requires an offer of corresponding source code, Alauda makes the corresponding source code available as described at the notices location above or upon written request.

7. General

If any provision of this EULA is held to be unenforceable, the remaining provisions shall continue in full force and effect, and the unenforceable provision shall be reformed to the minimum extent necessary to make it enforceable.

Any claim, controversy, or dispute arising under or relating to this EULA shall be governed by the laws of the Republic of Singapore, without regard to any conflict of laws provisions. The rights and obligations of the parties to this EULA shall not be governed by the United Nations Convention on the International Sale of Goods.

This EULA, together with the license terms applicable to particular components and data files identified in Sections 1 and 6 and the Alauda AI Supplemental Terms incorporated by reference above, constitutes the entire agreement between you and Alauda with respect to the subject matter hereof and supersedes all prior or contemporaneous communications, understandings, or agreements, whether written or oral, with respect to such subject matter; provided that nothing in this EULA supersedes or modifies any separate agreement between you and Alauda governing subscriptions, support, or other services (including the Alauda Enterprise Agreement and the terms incorporated into it). No modification of this EULA shall be binding unless in writing and signed by an authorised representative of Alauda, except for terms expressly incorporated by reference in this EULA, which may be updated in accordance with their stated update provisions; provided that, if you do not agree to a later revision and you use an applicable copy of the Programs (including any AI model) other than under an active subscription covering that copy or model, the version of any incorporated terms in effect on the date you obtained that copy or model continues to apply to it, no later revision imposes new or additional restrictions on your use of it, and a revised version applies only to a copy, update, or model obtained after its effective date.
